CONNECTED

FAMILY CONTRACT

Congratulations on joining a movement of families replacing unhealthy technology habits with meaningful connection.

THINK ABOUT IT

Most of us enjoy the many benefits technology can bring even as we sense ourselves forming unhealthy patterns. Some of these habits unfortunately undermine real connection to one another. It is helpful to establish clear boundaries and agree together how we will use our devices. This will help us to connect with each other and protect ourselves and our family from possible dangers.

TALK ABOUT IT

Use the family contract to guide a proactive conversation about appropriate boundaries. Make it an enjoyable experience by serving ice cream sundaes or some other favorite dessert as you walk through the suggested agreement statements included in this guide.

TAKE THE LEAD

Start by explaining that it is your job as a parent to protect and to guide the children toward God-honoring choices in all areas of life, including technology. Talk through the parent section first to show how you plan to model healthy habits rather than just expect the from the kids. Feel free to make changes, edits or add anything that fits the unique dynamics of your family.

So whether you eat or drink or whatever you do, do it all for the glory of God. (1 Corinthians 10:31)

SUGGESTED FOR PARENTS/ADULTS

Check all that apply and/or add your own ideas.

- ◇ **SHARE IT:** I will be involved and spend time with my child to be a positive part of his/her online activities and relationships just as I am with offline activities.
- ◇ **DISCUSS IT:** I will discuss reasonable rules and expectations for device usage and write them down as a reminder.
- ◇ **TIME IT:** I will monitor how much time and what parts of the day are appropriate for each family member to be on devices, including myself. (Exceptions may apply for time spent for school and work.)
- ◇ **MODEL IT:** Health boundaries will apply to adults as well. I will respect our tech-free zones and adhere to the same rules by limiting my own technology use to model healthy technology habits.
- ◇ **SHARE IT:** We will take time to share with each other how we use our devices.
- ◇ **COOL IT:** I will not overreact if my child comes to me with a problem related to an online experience. We will have a calm conversation and work together to resolve issues.
- ◇ **LEVERAGE IT:** I will find ways our family can use technology for positive ends such as encouraging one another, sharing prayer requests, etc.

SUGGESTED FOR KIDS/TEENS

Check all that apply and/or add your own ideas.

- ◇ **PROTECT IT:** I will not give personal information to anyone online including: name, address, telephone number, age, school, shoe size, etc. If anyone asks, I will check with my parent/guardian immediately.
- ◇ **SHARE IT:** I will tell my parents my user names and passwords but keep them private from everyone else, even my best friend!
- ◇ **UNDERSTAND IT:** I will be aware that things online are not always what they seem. There are many individuals that use the internet for evil intentions and to deceive.
- ◇ **ANSWER IT:** If the phone rings and it is one of my parents, I will answer it, unless I am driving (if applicable). I will not answer, text or use any devices while driving.
- ◇ **JUDGE IT:** I will not post, send, search for, receive or text anything that is inappropriate or offensive. (Good test: Would you send it to Jesus?)
- ◇ **HONOR IT:** I will respect our family tech-free zones and put my device away during these times.
- ◇ **SURRENDER IT:** I understand that using any device is a privilege rather than a right. I will follow our family contract to retain that privilege. If I break this contract, I understand I may lose access for _____ hours/days.
